EDUCATION

B.Tech in Computer Science Engineering **2023 – 2027 (pursuing)**

IIMT University, Greater Noida Campus *Current CGPA:8.460*

Class XII (CBSE) | Sunrise Academy, Dadri **2023**

Stream: PCM | *Percentage: 75%* **2021**

Class X (UP Board) | Sunrise Academy

Percentage: 70.3%

TECHNICAL SKILLS

- **Languages:** Python, Java(Basic), SQL
- **AI & ML:** Neural networks**,** Computer Vision, Deep Learning, Metplotlib, OpenCV
- **Tools:** VS Code , OCI, Git/GitHub
- **Core Concepts:** DSA, OOPS, DBMS, Generative AI

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern **July 2025 – August 2025**

CodSoft | *Remote*

- **Game AI (DSA Focus):** Built an unbeatable Tic-Tac-Toe AI using **Minimax Algorithm**, .
- **Recommendation System:** Movie, books recommender using **TF-IDF Vectorization** and **Cosine Similarity** for content-based filtering.
- **Rule Based Chatbot:** Built a rule-based bot integrating Wikipedia API for dynamic information retrieval.

Full Stack Development Intern

CodTech IT Solutions |Remote

- **Chat Application-** Built a Chat application using html, css , javascript, websocket, Reactjs.
- **Collaborative Document Editor-** Built a document editor using html,css,javascript,reactjs,websocket,quilljs.
- **Weather API Integration-** Built a weather app using html,css and javascript which tell us weather and temperature.

VIRTUAL EXPERIENCE & SIMULATIONS

Cyber Security Analyst Job Simulation **Remote**

TATA (via Forage)

- Performed work Related to Identity Access Management(IAM)and gain hands-on experience as a cybersecurity consultant for a fictional enterprise.Tasks include designing an IAM strategy,evaluating readiness for IAM solutions.

Technology Job Simulation **Remote**

Delloite Austrailia (via Forage)

- Performed works related to coding and development and gain hands-on experience in data processing writing python unify or reconcile messy data.

PROJECTS

- **Smart Door Automation –** Build an IIOT Project using Aurduino UNO,breadboard,Keypad,LCD,ESP32.
- **Air Quality Index-** Build an IIOT project using Mq137, MQ7gas sensors which detect harmful gases, ESP32,Breadboard ,Wires.
- **Collaborative Document Editor-** Develop a Document Editor using Reactjs, HTML,CSS,Websocket.
- **Recommendation System-** Build a recommender for movies and books using content based filtering.

- **OMR Evaluation and Scoring System-** Develop an OMR evaluation and Scoring system using Open cv and computer vision.

CERTIFICATIONS

- Certified in Oracle OCI AI Foundation Associate2025.
- Certified in NPTEL programming in java with 82% and Elite Certificate,Silver Badge.
- Certified in HTML&CSS Course by cisco networking Academy
- Certified in SQL (basic) from Hackerrank.
- Certified in Use of Gen AI for Software Development.
- Certified in C# Data Structures from Infosys Springboard
- Certified in Machine learning using python from Infosys Springboard
- Certified in masterchatGPT course by UniAthebna.

ACHIEVEMENTS

- Participated in SIH Internal Hackathon Organized by IIMT college of Engineering in which we present our idea on Dialysis System which is helpful for Heart chronic disease patient during Eathquake.
- Python Basics- earned golden badge from Hackerrank.
- Participated in EDTech'24 Hours Hackathon 2025 Organized by Innomatics Research Lab in which I make an OMR Evaluation and Scoring System Using OpenCV.
